eSOne InQuery InQuery Note Editor Transition Announcement

Transition to Note Editor

DeliverHealth is excited to announce that the new InQuiry Note Editor, currently in beta testing, will be enabled for all users on Wednesday, May 21, 2025. Beginning on this date, all users will experience the enhanced Note Editor, Viewer, and Info page when editing or viewing notes or the Info page.

Why the Change?

The new Note Editor offers:

- **A sleek, modern, and intuitive design** for an improved user experience.
- **Enhanced performance and stability**, reducing lag and improving responsiveness.
- **Streamlined workflows**, making it easier to create, edit, and review notes efficiently.
- **Improved readability** with a refined layout and optimized text formatting.
- **Future-ready architecture**, ensuring better support for ongoing updates and enhancements.

Transition Timeline

To support a smooth transition, we will offer a one-month transition period ending Tuesday, June 17, 2025, during which users can switch back to the legacy editor on a per-note basis. After this period, the legacy editor will no longer be available, and all users will exclusively use the new Note Editor, Viewer, and Info pages in InQuiry.

Early Access Opportunity

Users who would like early access before the full rollout can enroll in the beta program. For details on how to join, visit:

https://docs.escription-one.com/inquiry/note_editor_beta/#join-the-beta-program.

If you have any questions, please reach out to your system administrator or support team.
